[EXPERIENCE]

[violetminded - VIOLETMINDED.COM](#)

Freelance Web Design & Development [2009 --]

In my spare time, I run violetminded, which produces identity, web, and print designs for a modest client base of artists, startups, and small businesses.

CLIENTS INCLUDE ([VIOLETMINDED.COM/PORTFOLIO](#)):

01. A.E. Snowe -- *Logo, Website, and Print designs*
02. Kelly Diels -- *Logo and Website designs*
03. Techtrix Consulting Services -- *Print and Website designs*
04. Smirk Magazine -- *Logo design*

[Techtrix Consulting Services - KAMLOOPS, BC](#)

Technical Support, Web Design & Development [2004 to 2009]

Before violetminded, I worked as support and design/development for Techtrix Consulting Services in my off hours. Most of the support involved troubleshooting network issues for small businesses in the Kamloops area.

CLIENTS INCLUDED:

01. Prima Enterprises -- *Website design, technical support*
02. TQM Consulting -- *Shell & Network script development, technical support*
03. Lac Le Jeune Bed & Breakfast -- *Logo and Website designs*

[NRI Distribution, Inc. - KAMLOOPS, BC](#)

.NET Software Developer & Designer [2006 to 2008]

I worked with NRI Distribution to design and develop handheld computer applications that are currently being used in their three warehouses. These applications used both voice and text input and were designed to effectively maximize screen-space and limited bandwidth and memory.

[Syncrude Canada, Ltd. - FORT MCMURRAY, AB](#)

Co-op Student [May 2005 to December 2005]

I had many roles as a co-op student. I assisted the department's systems analyst in all project management tasks (resourcing, risk, and change management, in accordance to ITIL standards) that either fell into traditional SDLC or Agile development. I also worked on various projects in the Plumtree intranet environment as both developer and QA.
